

Project Status report

Name:	Pruthvi Patel, Poojan Patel
Community & UN SDG(s):	SDG 12 - Responsible Consumption & Production
MVP #	3
Sprint cycle dates:	10/03/2025 – 22/03/2025

Project Name	GroceryMind
Blurb	The main feature of GroceryMind helps users monitor their food stock along with expiry date tracking and shopping list building capabilities. The project aligns with SDG 12 - Responsible Consumption & Production, aiming to reduce food waste and encourage responsible grocery management. Currently, we have completed initial UI development for login, registration, walkthrough and home screens. Our focus is on enhancing user experience and integrating core functionalities.
For Week Ending	22/03/2025
Project Status	Green
Status Description	The Shopping List and Meal Suggestion features have been successfully implemented in GroceryMind.

Activities—During the past sprint cycle

- Implemented Meal Suggestion feature
- Shopping List
- Notification System (In Progress)
- User Testing
- Research Paper
- Improved overall design and User Interface

Project Issues

Still connectivity problem with notification system.

Project Changes

No major changes

Activities—Planned for Next Week

- Full implementation of notification system
- Final touch-up of the application
- Complete the research paper
- Complete other documents (Report, lessons learned out, etc.)

University

& APPLIED SCIENCE

Reflection

Do you feel "on track"? We are on good track as we have implemented most of the core functionalities.

What progress do you particularly feel good (great) about? Successful implementation of Shopping list and meal suggestion

What barriers (if any) do you feel is/are a current impediment to success? Notification system implementation needs further refinement.

What help (if any) do you require to move positively forward? NA

What questions or concerns do you have (if any)? NA
