

Project scope

Name:	Pruthvi Patel, Poojan Patel
Community & UN SDG(s):	SDG 12 - Responsible Consumption & Production
Date:	08/02/2025

Project Name	GroceryMind
Project Deliverables	
WBS 1: Food Tracking System	Users can list grocery items with details such as expiry date, and quantity. Enables category-based organization (e.g., Dairy, Snacks, Meat).
WBS 2: Expiry Reminder & Notification System	Sends timely reminders before food expiry using push notifications. Users can customize notification settings (e.g., 1 day, 3 days, or a week before expiry).
WBS 3: Smart Shopping List	Allows manual item addition and editing. Users can add their roommates, family members, and others with whom they want to share their list.
WBS 4: Project Report and Paper	The end of the project requires submission of a report using IEEE format. The research, problem statement, motivation, technical issues and solutions regarding this project will be explained in the submitted report.
Project Exclusions	
Add barcode scanning, meal suggestions and collaboration with foodbanks in future scope.
